

8 November 1956

MEMORANDUM FOR: Chief, D/E  
Chief, D/R  
Chief, D/P

FROM: AD/BI

SUBJECT: Subsection Comments on Principal Sources

1. Heretofore the subsection COMMENTS ON PRINCIPAL SOURCES has been integrated with the text in NIS sections that are controlled in their entirety. This creates a problem in removing the comments when any of these sections are subsequently released to a Foreign Government, which is happening with increasing frequency. Reprinting of the page is necessary in order to delete the comments and still provide the complete text.

2. Effective immediately, therefore, the COMMENTS ON PRINCIPAL SOURCES subsection in controlled NIS sections, as well as those in uncontrolled sections, will always be printed on a separate page to permit of easy removal if this becomes necessary. The comments will continue to carry the control statement as required by NIS Standard Instructions.

3. So far as practicable, this change will be made in sections now in process at GPO.
